All-in-One PC ET2410INKS-001
From Life To Live
Bring live performance home
and fill your space with acoustic wonder

Centerpiece at Home

All-in-One PC ET2410 Series, available in 23.6" large screen sizes, suits your needs perfectly. From its elegant design with great curves all around and advanced features to the easy- and fun-to-use optional multi-touch screen, ET2410 Series will become the centerpiece of your family's entertainment. Plus, the elegant pedestal design provides effortless tilt adjustment and superb stability.

Indulgence in Stunning Visual

Super Sharp

The 23.6" 16:9 Full HD LED screen delivers more details of the high definition content ; brings you more pleasure while playing games or watching movies. Its super-sharp colors enhance your high-definition entertainment, graphics-intensive creative tasks, productivity applications, gaming adventures and Internet surfing.

Latest NVIDIA Graphics

Armed with a powerful NVIDIA GT450M graphics card with 1GB VRAM, select ET2410 Series handily render intense HD video and large files without placing huge demands on the CPU. ET2410 Series also makes use of their 802.11b/g/n wireless with an integrated webcam and microphone to keep you connected to your family and friends.

BUILT-IN BLU-RAY Combo*

With pristine HD resolution and stunning clarity, Blu-ray Disc™ technology is the ultimate way to enjoy your entertainment. You can even burn your videos to DVD or Blu-ray Disc™ media to share with your family and friends. *Select models

Watch TV*

Relax. Watch TV anytime instantly, whenever you feel the need. ET2410 Series plays video at true 1080p resolution and features a built-in hybrid digital/analog TV tuner, making it an ideal TV replacement. You can even connect a second display via HDMI out. *Selected models

Indulgence in Rich Usability

USB3.0 10 Times Faster

USB 3.0 is capable of providing a bandwidth of about 5Gbps or around 10 times the bandwidth of the current USB2.0. This allows for faster transfers of heavy files like video, photos and more between a multitude of devices like compatible external hard drives and cameras. A high-speed transfer rate to significantly reduce data transmission times will let you spend less time waiting and more on the task on hand.

asus@vibe - online Entertainment Content Store

asus@vibe is a one-stop entertainment platform that serves as a value-added service. With the asus@vibe platform, users can access or download a wealth of exciting and engaging digital content such as music, videos, games, magazines, e-books, as well as tune into their favorite radio stations and stream live TV anytime and anywhere!

Indulgence in Life-like Sound

Hear and Feel the Power of SonicMaster

The ASUS All-in-One PC ET2410 Series features the exclusive SonicMaster Technology for pure audio reproduction. ET2410 Series reproduces richer and more distinct vocals at a wider frequency range, while bass enhancement at the lower end of the audio range delivers richer and deeper bass. So whether you're watching movies or listening to music, it delivers the appropriate aural experience.

Life-like Surround Sound with DTS

In addition to the SonicMaster premium sound tech, ET2410 Series also has the DTS Surround Sensation Ultra-PC™ to achieve superior audio performance. DTS Surround Sensation UltraPC uses advanced processing technology to deliver an incredible surround sound effect. Whether the audio source is stereo or surround, ET2410 creates a virtual surround sound experience for you to be fully immersive. Experience sound that is more immersive, clearer, and more spacious than you may have thought was possible for a PC.
